custom List using a custom managed metadata. I created a set of Attachments in the List, and then I disabled the attachment in the List, but I can't enable it anymore. I see other answers, but they are about the other managed metadata types than the Custom Metadata type I'm using. Is there a way to enable it? I have to do a Sharepoint Developer conference tomorrow and I need to do some tests. The present invention relates to a process for preparing microcrystalline wax by cooling a homogeneous mixture of a microcrystalline wax, a polyvinyl alcohol/vinyl acetate copolymer, a plasticizer and a petroleum solvent with a cooling medium in a cooling

zone. Microcrystalline waxes (microwhacks) are known from U.S. Pat. Nos. 2,826,521, 2,893,846, 2,937,118 and 3,148,103, U.S. Pat. No. 4,077,983, British Patent 1,349,970 and German Patent 2,455,079. These known microcrystalline waxes are used in particular as a low-viscosity additive for wax-based sealants in order to increase the plasticizing effect and the workability of the sealants. EP 257,539 describes a process for the preparation of microcrystalline wax with the aid of a free-

flowing, electrostatically charged composition of at least two oppositely charged components, one of which is a resin. The resin is a polyvinyl alcohol/vinyl acetate copolymer; examples of the plasticizers are glycerol, pentaerythritol and polyglycerol
