### The Reality of The End

The very appearance of the last dream, the final reality. On the bottom of the sea, breathing in the blue of a calm sea, a colossal statue resembling a dragon stands. Its legs are high and long as its neck, and a figure carved into it is depicted deep in its throat.

In the dream, a blue and silent figure is running towards the dragon.  
In the dream, a memory of a key is shaped into a key.

A beautiful girl is holding a beach ball. She has slanted round eyes that shine brightly. The manicured wing of an angel hangs from her hand.

I've been getting used to this old cracked vessel. Still, it is where I have spent the past two years. It is to this place that I have sworn my loyalty. However, this is a world of confused loyalties. The true bonds between the people of this world are under threat. No matter what, this world will go on.  
I can end this world through the guidance of this dream.  
All that power... I want it too. Even if it is only a moment.
