NEW: Goalkeeper Goalkeeping Goalkeepers deal with unique situations in the penalty box, such as players hacking at their legs and the goalkeeper's body. Fifa 22 Download With Full Crack pro-level goalkeepers will learn new techniques and how to make crucial saves that improve gameplay. Improvements to goalkeeping also aid gameplay for defenders, midfielders and strikers when they need to become a sweeper or get caught out of position. The development team has also tweaked the goalkeeper AI to help create greater variety in the penalty box, such as when a goalkeeper spots an attacker aiming to pounce. The penalty box has been given a new dimension, highlighting the goalkeeper at different sides of the box when capturing possession. By reducing the distance between the penalty spot and the goal, the penalty box has been made smaller, which enables more creative moves, but also reduces the likelihood of a save. **NEW:** Face Analysis The Face Analysis feature – introduced in FIFA 21 – is back in FIFA 22 and brings a new level of responsiveness to gameplay. When a player scores, hits a free kick or takes an outrageous long shot, players' expressions and behavior are now automatically animated. Every touch, strike or shot has been analyzed to create a variety of visual effects and reactions, depending on the type of shot. Challenge Modes The new Pro Clubs mode returns for FIFA 22 – including the all-new Challenge Mode. Players can select a club with similar skill and tactical levels as the real-world team, and compete for titles including FUT Champions Cup, the Golden Boot, and a whole new club ranking system. FIFA 22 continues to introduce new storytelling segments and events – all of which can be accessed via the News Feed. The News Feed is packed with new videos from Real Clubs and players, with some of the best moments playable offline. The new FIFA Ultimate Team mode returns with new cards, card packs and trophies to collect. Players can also compete in FIFA Ultimate Team Leagues, and earn more XP and Coins to level-up their teams, or progress through the new Hero Management System (HMS). HMS Features The Hero Management System features a revamped upgrade system with the ability to tailor teammates to player skill levels.
