About the National Disaster Training Center National Disaster Training Center (NDTC) is a non-profit organization founded by Arnold Jones. NDTC is a national, two-year, government-funded, Â“hands-on, residential training center" for local, county, and state-government officials to learn the fundamentals of training for preparedness, risk reduction and response to a wide range of emergencies and disasters. It is now located in the Hotel and Training Center known as the National Disaster Training Center. The mission of NDTC is to provide residents of the United States, its territories and possessions a free, affordable, multi-modal Â“hands on, residential training center" for local, county, and state- government officials to learn the fundamentals of training for preparedness, risk reduction and response to a wide range of emergencies and disasters. It is the only "hands-on,Â . Being of the "do something, learn from your mistakes" mentality, a host of displaced, abandoned and otherwise homeless folks moved into the NDTC during the first year. It is presently the only organization in existence dedicated to improving the nation's emergency response capability by providing the nation's emergency managers an affordable, hands-on, residential training environment in which to learn the fundamentals of training for preparedness, risk reduction and response to a wide range of emergencies and disasters.
