I am familiar with this product and it has always been a reliable tool for me. My only concern is that your review includes the DNG preview feature, while your product page clearly says that the DNG is not supported. I would appreciate it if you could remove the preview and later add the option in a future release. **Otherwise, the app itself is quite good and I completely agree with your 5 star rating.** Great review, custom app and behavior. However there are couple of minor issues.

1. In WP8 you can't change the order of the smart tools, which often can be important. IMHO they should be the last two, such that you could write and import custom scripts.

2. Text tool, which is basically a stylizing tool now should have an option to keep the current style. (Such options belong to the stylizing tool). This will significantly improve it's performance. For example, Retouch Artists is one of the best plugins in the App store.

I also like the way the layers manage themselves. It would be nice if the layer save mode could be changed from 'inside the app' to 'right click' like in Photoshop [the layers are aligned left, right, top, bottom, good and bad, use any of the other in any of the other]...
